

### **Advice & Consultation: Tax Advice in Contested Divorce**

Sanctuary is working with a survivor in a matrimonial action and has uncovered some significant tax issues created by her husband. One of several issues that has arisen are amendments to their joint tax returns that our client did not know about, resulting in a large joint tax liability. We are seeking advice on filing for innocent spouse relief, as well as assistance reviewing the tax returns and untangling some of the tax history and return amendments that our client's husband did without her knowledge. We are seeking assistance with this over the next couple of weeks.
